Paradise Cooperative
Thursday 18th May 2023

In Science, Year 2 have been learning about plants. To enhance their learning, they attended a 'Plant biodiversity' workshop at Paradise Cooperative in Wandsworth. They identified and classified different species of flowers and plants that they could find on site.

Pupils also took part in an art activity inspired by the Japanese 'hapa zome' involving cloth, plants and a mallet! They also got to make a little pot out of newspaper and planted a seed to take home. Year 2 has a very enjoyable morning on this beautiful site!
